RESOLUTION OF THE BOARD OF SUPERVISORS  
OF THE COUNTY OF SHASTA  
CONTINUING THE PROCLAMATION OF  
THE SHASTA COUNTY GRANT-FUNDED DROUGHT RELIEF PROGRAM FOR  
EMERGENCY REPAIRS AND REPLACEMENT NECESSARY FOR PROVISION OF  
WATER SERVICE WITHIN THE COUNTY**

**WHEREAS**, Public Contract Code section 1102 defines an emergency as “a sudden unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services”; and

**WHEREAS**, pursuant to Public Contract Code section 20134(a), “In cases of emergency, when repair or replacements are necessary to permit the continued conduct of county operations or services, the board of supervisors, . . . may proceed at once to replace or repair any and all structures without adopting the plans, specifications, strain sheets, or working details or, subject to Chapter 2.5 (commencing with Section 22050), giving notice for bids to let contracts. If notice for bids to let contracts will not be given, the board shall comply with Chapter 2.5 (commencing with Section 22050)”; and

**WHEREAS**, Public Contract Code section 22050(a)(1) states, “In the case of an emergency, a public agency, pursuant to a four-fifths vote of its governing body may repair or replace a public facility, take any directly related and immediate action required by that emergency, and procure the necessary equipment, services, and supplies for those purposes, without giving notice for bids to let contracts”; and

**WHEREAS**, On October 19, 2021, the Governor of the State of California expanded the drought emergency declaration to proclaim a state of emergency due to drought such that the drought state of emergency is in effect statewide; and

**WHEREAS**, On February 13, 2023, the Governor of the State of California issued Executive Order N-3-23 stating that the drought emergency proclamations issued in 2021 remain in full force and effect; and

**WHEREAS**, the Governor’s State of Emergency Proclamation acknowledges that the State of California is experiencing critically dry conditions; and

**WHEREAS**, in 2023, the United States Bureau of Reclamation reduced Central Valley Project water deliveries to 35% for agricultural use and 75% for municipal and industrial uses north of delta contractors; and

**WHEREAS**, dry conditions and lack of precipitation present urgent problems: drinking water supplies are at risk in many communities; and

**WHEREAS**, The State of California has implemented multiple drought relief grant programs, including the Small Community Drought Relief Grant; Urban and Multibenefit Drought Relief Grant; Safe and Affordable Funding for Equity and Resilience (SAFER); and any other drought relief grant, if any, that may become available to the County to address drought impacts (collectively, the Grants) and the County wishes to establish a program for the purpose of utilizing the Grants to address immediate impacts on human health and safety, including providing water to households or communities that lose access to water or are threatened with the contamination of water supplies, among other work, services, and projects if authorized by the Grants; and

**WHEREAS**, the Grants are intended to provide water to disadvantaged communities and low-income households that face the loss or contamination of their water supplies, to address immediate impacts on human health and safety; and

**WHEREAS**, the State of California Department of Water Resources has represented that some of the types of eligible uses and purposes of the Grants include but are not limited to funding hauled water, installation of individual and community water tanks, bottled water delivery, emergency water interties, new wells and pumps or rehabilitation of existing wells and pumps, and other projects that support immediate drought response; and

**WHEREAS**, the engineering services, construction services, and water supply services for eligible households and communities required to properly repair or otherwise adequately remediate unexpected or unplanned loss of access to water, whether due to the failure of a domestic well or other cause, will take too much time to procure through the normal competitive bidding process, which can often take three to six months; and
