RE: 2016 Automatic Aid Agreement with Shasta County Fire Department,

In response to your letter of August 25, 2016 the Shasta Lake Fire Protection District will not be changing its position in regards to the new agreement. The new agreement removes a protection from a potential future cost that the District would have no control over. The District is not willing to willfully remove that protection by signing the new agreement. It would be agreeable if the language that secures the protection could be added to the new agreement or the updated map be referenced to current agreement.

The District understands and respects that per Section 7 of the current agreement the County could exercise its right to terminate the existing agreement. If the agreement is terminated the District will continue to respond to the capacity it can. Contact me with any questions or concerns.

Respectfully,
