5. If additional funding becomes available, the CARB Executive Officer retains the authority to amend this Grant to provide additional disbursement to the Grantee to complete tasks related to the Scope of Work for this Grant Agreement.

F. SCOPE OF WORK

This section defines the respective duties and requirements of CARB and the Grantee in implementing this Grant Agreement. In sum, the Grantee shall review and update data currently stored or being uploaded into the California Emissions Inventory Development and Reporting System (CEIDARS) database. If additional funding becomes available, this Grant Agreement may be amended in subsequent years to provide additional funding to the Grantee to improve the future data loaded into the CEIDARS database.

1. CARB is responsible for the following:

- a. Participating in a project kick-off meeting or conference call and ongoing coordination with the Grantee to discuss project activities and guide project implementation;

- b. Reviewing and approving elements developed by the Grantee for implementation of the project, such as Progress Reports, the draft Final Report, and the Final Report;
- c. Reviewing and approving the Grant Disbursement Request Forms (Exhibit C) and distributing funds to the Grantee in accordance with Exhibit B, Attachment II Project Milestones and Disbursement Schedule if the milestones have been met;
- d. Providing project oversight and accountability (in conjunction with the Grantee); and
- e. Ensuring compliance with the applicable requirements of this Grant Agreement.

2. The Grantee is responsible for the following:

Development and implementation of defined project tasks as described below.

Minimum duties and requirements of the Grantee include to:

- i. Conduct a project kick-off meeting or conference call and maintain ongoing project coordination with the CARB Project Liaison;
- ii. Review, update, and submit to CARB quality assured criteria and toxic pollutant emissions data for stationary sources of criteria pollutant emissions and toxic air contaminants under the Grantee's jurisdiction;
- iii. Oversee the project budget and funds; and
- iv. Submit Progress Reports along with Grant Disbursement Requests, the draft Final Report, and the Final Report to CARB.

a. Project Development and Implementation

The Grantee's Scope of Work includes the following tasks and project elements:

- i. Review and update list of district facilities¹ currently in CARB's CEIDARS emission inventory database for calendar years 2008-2016. (Task 2).

If a district has not reported facilities to CEIDARS, the district should make a determination whether any facilities in their jurisdiction should be added to the database and report the required information per Section F.2.a.ii below, giving priority to facilities subject to CARB's Regulation for the Mandatory Reporting of Greenhouse Gas Emissions (MRR facilities).

¹ For purposes of this Grant Agreement, "facility" means a stationary source within the Grantee's jurisdiction that is a reportable source of criteria pollutant or toxic air contaminant emissions.

The Grantee must review the facilities in the CEIDARS database for calendar years 2008 - 2016 and provide CARB the operational status (active, inactive, closed, etc.) of each facility within the progress report submitted with the reimbursement request when Task 2 is complete. For inactive and closed facilities, the progress report must include the year when the facility last reported operations. In addition, the Grantee will work with CARB's emission inventory staff to remove closed facilities from the CEIDARS facility tables for the relevant years.

- ii. Review and, to the extent that the Grantee has the necessary data, update the following CEIDARS tables for each facility in operation between 2008 and 2016 (Task 4):
 - a) FACILITY tables (FAC) – The Grantee must review and update the name, address, geospatial coordinates and, to the extent available, other basic information for each emitting facility in CEIDARS.
 - b) Criteria and toxics EMISSION tables (EMS and TEMS) – These tables contain the actual emissions for each emitting process. For each pollutant emitted, the Grantee must review and, if data are available, update information on the amounts emitted annually.
- iii. Update and quality assure facility information and emissions data in the CEIDARS tables described in Section F.2.a.ii above for facilities that were in operation in inventory year 2017 or meet the reporting thresholds in Section F.2.a.iv below. (Task 3)
- iv. Reporting Threshold.

The Grantee must report into CEIDARS annual criteria pollutant emissions for all facilities that emit 10 tons/year or more of any of the criteria pollutants listed in section F.2.a.v below. In addition, the Grantee must report annual toxic pollutant emissions data collected under the Grantee's AB 2588 Air Toxics Hot Spots Information and Assessment Act program for facilities with a prioritization score greater than 10, a cancer risk of 10 in a million or greater, an acute or chronic index greater than 1, or those emitting 10 tons per year of any single hazardous air pollutants (HAP) or 25 tons per year of any combination of HAPs.

- v. Pollutants to be Reported.

When updating the CEIDARS emissions tables described in Section F.2.a.ii above, the Grantee must report emissions for the following criteria pollutants: total organic gases (TOG), nitrogen oxides (NOx), sulfur oxides (SOx), carbon monoxide (CO), particulate matter (PM), lead (Pb) and

ammonia (NH₃). In lieu of TOG and PM, the Grantee has the option of reporting reactive organic gases (ROG), and PM₁₀ and/or PM_{2.5}; however, if these three pollutants are not reported, CARB will calculate them based upon the respective TOG and PM speciation profiles. The Grantee must also report emissions of toxics pollutants that are listed in Appendix A-I through A-III of the "AB 2588 Air Toxics "Hot Spots" Emission Inventory Criteria and Guidelines" (located at <https://www.arb.ca.gov/ab2588/2588guid.htm>).

b. Project Kick-off and Ongoing Coordination

Before initiating work on the project, a one-time kick-off meeting or conference call will be held between the Grantee and CARB project management staff. The purpose of this meeting is to discuss items such as the proposed work plan, details of task performance, and issues needing clarification or resolution prior to initiating work. Ongoing Grantee coordination and review meetings with the CARB Project Liaison to discuss project status will be held as needed. Additional meetings may be scheduled at the discretion of the CARB Project Liaison. These meetings may be conducted by phone if deemed appropriate by the CARB Project Liaison. Project coordination and review meetings are the responsibility of the Grantee and should contain:

- i. Agenda for the meeting with conference call information;
